

AMENDMENT TO THE CLAIMS

1-23 (canceled)

24 (currently amended) A cosmetic hair conditioning product, the product having the form of an emulsified solid composition and comprising at least one hair conditioning ingredient and a principle solidifying ingredient comprising cocoa butter; wherein the product is prepared from a mixture including 10% to 50% by weight of the cocoa butter.

25 (previously presented) A cosmetic product according to claim 24, comprising a solidifying ingredient at least one of glyceryl stearate, PEG 100 stearate and stearic acid.

26 (previously presented) A cosmetic product according to claim 25, prepared from a mixture including up to 20% by weight of at least one of glyceryl stearate, PEG 100 stearate and stearic acid.

27 (previously presented) A cosmetic product according to claim 26, wherein one solidifying ingredient comprises cetearyl alcohol and sodium lauryl sulfate.

28 (previously presented) A cosmetic product according to claim 27, prepared from a mixture including 6% to 37% by weight of cetearyl alcohol and sodium lauryl sulfate.

29 (previously presented) A cosmetic product according to claim 28, wherein one solidifying ingredient is also a hair conditioning ingredient.

30 (previously presented) A cosmetic product according to claim 24, wherein the at least one conditioning ingredient comprises at least one of propylene glycol, cetearyl alcohol, sodium lauryl sulfate, lanolin, soya lecithin and cetrimonium bromide.

31 (previously presented) A cosmetic product according to claim 24, further comprising up to 25% by weight of water.

32 (previously presented) A cosmetic product according to claim 24, further comprising 5% to 25% by weight of at least one of herbs, fruits and vegetables.

33 (previously presented) A solid hair treatment product, comprising a shampoo and a cosmetic product according to claim 24.

34 (previously presented) A solid hair treatment product according to claim 33, comprising substantially 30% to 70% by weight of the shampoo and 70% to 30% by weight of the cosmetic product.

35 (previously presented) A solid hair treatment product according to claim 33, wherein the cosmetic product is surrounded by the shampoo.

36 (currently amended) A solid hair treatment product according to claim 33, wherein the shampoo is surrounded by the cosmetic product.

37 (previously presented) A solid hair treatment product according to claim 33, wherein the cosmetic product and the shampoo form a pattern.

38 (previously presented) A solid hair treatment product according to claim 37, wherein the pattern is arranged to enable contemporaneous application of the cosmetic product and the shampoo to the hair of a user.

39 (previously presented) A solid hair treatment product according to claim 38 wherein the pattern comprises a spiral pattern.

40 (currently amended) A method of fabricating an emulsified solid form cosmetic hair conditioning product, comprising mixing a plurality of ingredients so as to provide a mixture including at least one hair conditioning ingredient and cocoa butter, the cocoa butter providing a principle solidifying ingredient, warming the mixture to a temperature within a range of from 45°C to 60°C, allowing the mixture to cool, applying further mixing of the mixture when the mixture has attained a temperature within a range of from 35°C to 25°C, and allowing the mixture to cool further to provide the emulsified solid form hair conditioning product.

41 (previously presented) A method according to claim 40 wherein the further mixing is provided when the mixture has attained a temperature of between 27°C and 30°C.

42 (previously presented) A method according to claim 40 wherein one of the ingredients is selected to comprise water up to 25% by weight of the mixture.
